Mr. and Mrs. Carl Smith were beach arrivals at the Osburn last week from Salem.

A company of Boy Scouts, numbering twelve boys, whose ages range from 12 to 18 years, from Dallas, arrived in

"GETS IT" is a Wonder for Corns

No Fuss, No Pain, Sure and Quick, Nothing Like It. "Gets" Them Every Time.

You never used anything like "GETS-IT" for corns, before! You're sure at last that every stubborn corn

"Nobody Knows How Good I Feel. Corns Are Gone at Last. 'GETS-IT' Did It!"

that you've tried so long to get rid of is a "goner." You apply "GETS-IT" in two seconds, that's all. "GETS-IT" does the rest. There is no more fussing, no more bandages to fix, no more salves to turn the flesh red and raw. No more plasters to get misplaced and press on the corn. No more picking and gouging, no more razors. "GETS-IT" stops pain, shrivels up the corn, and the corn vanishes. "GETS-IT" never fails, harmless to healthy flesh. Warts, calluses and bunions disappear.

"GETS-IT" is sold by drug stores at 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago.

cisco, is the guest of her sister, Mrs. W. C. Miller.

Paul Sowa and family motored to Willhoit Sunday.

Miss Avon McKinney is visiting friends in Portland this week.

The Markets

Wheat remains unchanged, and the spurt in barley that jumped prices a few weeks ago is over and prices are again normal. The oat crop is above the average both in quantity and quality, and prices are steady. Hops are not moving, offerings of 18 and 19 cents not being considered and buyers being chary about offering more. The rains of Thursday though light, did much good washing the dust from the vines and driving off the red spider which is reported to have done considerable damage. Pickers are plentiful and the crop will be taken care of easily.

Samples of California new are of fine quality, and the quality of the Oregon crop will be first class. Reports from England give the estimated yield at 300,000,000 to 350,000,000 pounds, and from the Continent a total of 740,000,000. The Kentish Observer speaks rather discouragingly of the conditions in England and gives the yield at 900 pounds to the acre, and not of the best quality either. In concluding its resume of conditions, it says:

"Disappointed with the promise of the home crop, and encouraged also by the unfavorable continental reports, growers are anticipating a high range of prices during the coming season, and very high ones will be required to pay for a crop which must be the most costly one ever produced."
